Conclusion:

- Revenue: ~1.69 Cr from 25K orders, avg order value ~709.
- Local products earn the most revenue, then Branded, then Imported.
- Cancellation rate ~7%, mainly linked to payment method used.
- Many visitors click and browse, but few complete a purchase.
- Discounted items don't always get better ratings.
- Some shipping modes are slower and get cancelled more often.
- Next steps: review risky payment methods, rethink discount strategy, fix slow shipping modes.
